

Congratulations 12 yr olds. You have accomplished something that you will remember for the rest of your life. You will be telling this story to everyone as you grow up. I am so proud of your accomplishments. When you were 9 yr olds, Rod approached me and asked if the Board of Directors would allow him to use the fields to practice and work with players who needed help. Rod was concerned that Park View never had much all-star success. He said that most other leagues had travel teams and it made their teams much better. So the board approved his request. Look at you now. Rod was right. He created this dynasty. And with your hard work, you perfected it. Each year you have gotten better. Then this year you did it. You are Southern California Champions. Wow! That sounds so awesome.

You have come such a long way since my final year as President. You took me on the ride of my life my final year in 2007. You presented me with two championship banners that year as President. I travelled with you as you took on Rancho Santa Margarita. While you came up two games short that year, it was still an incredible ride. Then you did it again as 11yr olds. And even though I turned over the Presidency to Rod, I was still there at all of your games enjoying your success. I supported you all once again this year you have shown so much heart this year. After losing to Sweetwater in District play, you came back to spank them in the Championship game. Then you cruised through the Sectional play. In Sub-Division, you got your long awaited rematch against Rancho Santa Margarita. This time it was your turn to be victorious. You showed them who the better team was in that 16-1 Championship game victory. But it was not over there. After losing the first divisional game 18-0 to Torrance, you once again showed those Park View hearts and came back and defeated them the next to games to capture the So Cal Championship.

Like in previous years I have been at all of your games once again sharing your success. I cannot be any more proud of all of you. Now you take on the West. And with a few more wins, you will be able to show and tell all of San Diego, How the West was won! And then take on the world!

Once again, Congratulations Boys, you will always have special place in my heart. Good Luck on you quest to reach Williamsport.

Former PV President
