

The last team to go to Western Region in San Bernardino from District 42 was back around 1982 (South Bay Little League). Park View Little League are the champions of Southern California 2009 which is the toughest tournament in the nation, they beat LA. A team from Chula Vista. This has been a truly great accomplishment by the players, manager, coaches, parents and the President, Rod Roberto. This team is a class act to watch. The way they behave around each other, the support among the ballplayers when someone makes an error or mistake during play etc. etc. is truly amazing to watch. We at District 42 are so proud of them. We are truly grateful that they represent us at Western Region. Apart from being great ballplayers, this group excels at school. Just a great group of kids having fun. Despite losing the first game in LA, they never gave up. We will be updating our web site with the schedule for Park View during their quest to go to the World Series. They will play their first game this Friday at 12:30 pm.
